W. CROWE DECLINES TO ANSWER A QUESTION AND FAILS TO GET JUDGMENT. Yesterday afternoon the case of Selden W. Crowe against Dr. Lachlan Tyler, demonstrater of anatomy of the medical department, Georgetown university, was tried before Justice Hall and resulted in a verdict for the defendant. This was an action, as stated in THE STAR, to recover a balance of \$10 for turnishing "anatomical material" on the 19th of October, said material, it is said, being a dead body.

Crowe, the plaintiff, testified that Dr. Tyler was to have paid him \$15 for the material, but paid him nothing, though he had paid \$5 to Mr. Barnett, who was his agent in the matter. Mr. Abert, counsel for defendant, asked how long this "anatomical material" had been Crowe's property.

Mr. Madden last night allowed this coming champion to exhibit his mettle before several hundred people at the Theater Comique, in a six-round sparring contest with Joe Denning, who is not unknown to pugilistic fame. Madden's man is John Ashton, 22 years old, of Providence, R. I., who is superbly built. From the start he forced the fighting. Ashton weighs probably 160, while Denning looked about 200. The sparring was spirited, at times decidedly so, aithough Denning, as a rule, contented himself with warding off the shoulder-bolts which his aggressive young antagonist. bolts which his aggressive young antagonist hurled on him in quick succession. In the fourth round Ashton got in some hard knocks on Denning's moustache and nose, bleeding his teeth. Ashton also knocked him off his feet in this round, and in the fifth round Denning was propelled through the scenery by a lively onslaught by his opponent. At the end of the sixth and last round Denning's chest and face were bespattered with blood, and he gave evi-

1249 HANOVER ST. containing as it does all the most improved Machinery invented up to the present time, but they produce a Flour Unsuppassed by any mill in the world. To prove that, we would simply state that a large quantity of this magnificent Flour is shipped annually to Europe and eaten at the principal Courts of the old world. We Guaranter that it is made from selected hard wheat Grown in Minnesota and Dakota. It is an acknowledged fact, that in this Flour a perfect separation of the glutinous particles of the wheat berry and a thorough elimination of all weak and starchy matter has at last been reached, and is consequently more Nutratrious, yielding more bread to the barrel than any other Flour. The best trade admits that from its bread making qualities it is the cheapest, as well as the best, for either family or baker's use, and unsurpassed by any Flour made. Every sack and every barrel is warranted to give entire satisfaction. PHILADELPHIA, DECEMBER 6, 1884 MESSRS. EISNER & MENDELSON, SOLE AGENTS OF JOHANN HOFPS
